

Find your PlayStore app on the screen of your device. It looks like this;

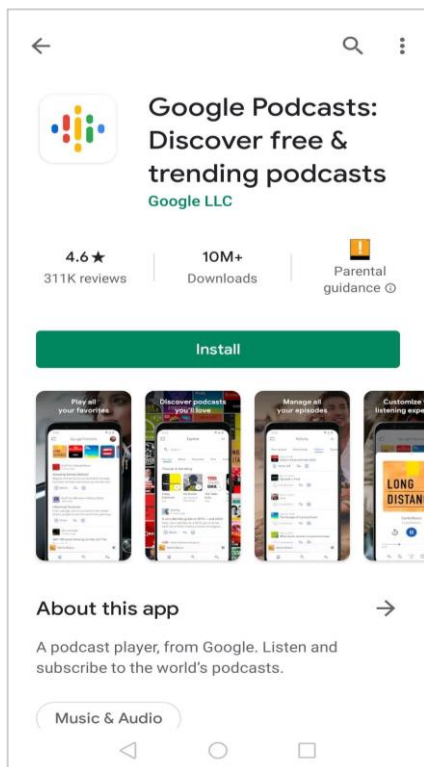

Tap to open it, and then:

Tap on the search bar at the top and type "Google Podcast" when the keyboard appears below

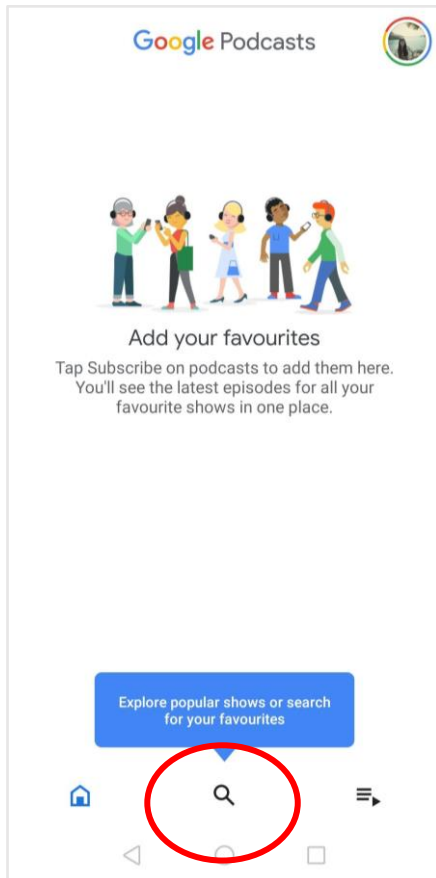

Then, tap on the first line to open the next screen

Now tap the green button that says "install" and wait for the process to finish. Once it's done, you will be able to tap on the OPEN button.

Once it's open, you can search for your preferred podcasts by tapping on the magnifying glass at the bottom.

Now type anything you would like to listen. For example, "Memories of the 50s", and this podcast (right) is suggested. Tap on the image and you will have different options.
